This low literacy diabetes education tool was developed for use with patients of the Virginia Garcia Memorial Healthcare Clinic. Images in this handout may be subject to copyright and further use of this material may require permission of the copyright holder.

You can use your plate to help you eat better

- Fill half the plate with vegetables.
- One of the plate's remaining quarters should be protein like fish, chicken or lean meat.
- The plate's last quarter could be whole grains like brown rice or whole wheat bread.
- Children, and women who are pregnant or breastfeeding, should add a glass of milk to their meals.
- Eat fruit for a healthy snack.
