New York Oct 17/60

Dear Sir,

I wrote especially to see you before leaving for that London – in reference to some report of your collection. The financial year of the Society really closed on Monday, but as several matters are in hand it will be necessary to keep the accounts open. We must hang on the results of your operations. How early can they be done? I will write to Mr. Ewen that we shall rely on his $200 still hope to see you before you go to London.

Yours truly, Baldwin
